The Claresholm Derby was of course the great drawing card and for this the imported English Stallion, Cartoon, was favored, a heavy shower of rain just before the race made the track soft and this helped, Matador who was favored in the handicap and this horse starting in 1st against the horse started to finish despite a gallant effort by Cartoon to overtake him, Cartoon ran in much better style than in Mackled. The time 2:10 and 4:10 was good for a soft track.

After the race the Derby Queen Miss Muriel Lindsay presented the silver mounted whip to the successful jockey and fastened a champion rosette to the winning horse's bridle. The harness events were good and there was great interest in the 2:12 in which the local Best M. met against Urian Mack. In the first heat Best M was close up in a good finish but unfortunately broke in the second heat. ONE DOLLAR DOWN AND ONE DOLLAR PER WEEK

For five years pays for an improved fruit tract in B.C. At the end of the five years it should bring you in \$500 to \$700 per year.

Actual Government Reports for the Kootenay Lake District show great results from ONE ACRE

There is hardly a man, woman or child in the United States or Canada who cannot afford One Dollar Per Week to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you and your heirs.

I have set aside five hundred acres of choice fruit land, and as soon as I have sold that on your opportunity is lost. I want every man, woman or child who who needs this aid to send their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal place, where you will have honest and congenial neighbors.

I will five ten and twenty acre tracts on very easy monthly payments. Also give five dollar down for each dollar one of my monthly extension and so the country for yourself. July 20 and August 20 are next two dates. A big bonus went up June 27—only bought from ten except two. Pretty good returns that what I am offering is right back. I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shore of the beautiful Kootenay Lake. I want you for my neighbor in B.C., and I am sure you will want to be when you see the country. The way to grow apples will interest you. Also the famous Kootenay Magazine. It is all about the fruit and other industries of Southern B.C. Since before 1900, 10¢ per year, or sent free for year or receipt of twenty names of friends or relatives who might be interested in B.C. fruit lands. My booklet, "Home-Coming," tells you how I spent five years in the West for what we all want, an ideal location for a home. It's free.

Write today, give name of a reliable reference, your nationality, and amount you wish to buy.

Be Careful in building that Home.

POOR LUMBER gives a house a cheap, shabby look which makes it difficult to rent. If it is to live in, you want to be proud to show it to your friends, and the fuel bills are large where low grade lumber is used. We make a specialty of high grade and "classy" material that you will want to use. We have built up the largest retail business in Western Canada, by being very fair as to grades and selling better stuff than is sold elsewhere at prices as low as those asked for the inferior kind. If your contractor uses CROWN LUMBER, it means that he is a man who wants the best of everything and it is the best recommendation he could have.

All druggists and stores. (See Zam-Buk Road also, 25c. per tablet.)

Batty Mad

It isn't easy living up to a reputation of being a wit, but Jimmie did his best.

Meeting a friend the other morning I said suddenly:

"I say, old fellow, have you heard about that young lady who poured a jug of water into her fiance's straw hat?"

No, replied his friend, getting ready to hear an excellent little anecdote.

Neither was I, said Jimmie, as he began to walk merrily away. It hasn't leaked out yet.

Bismarck and His Landlord

Prince Bismarck was famous for his iron will. Austria, Denmark, France and the German Parliament all had occasion to recognize this quality in the great statesman, so the story of the landlord in the following anecdote. While in France, as Prussian representative in the late 1800s, Bismarck lived in the home of a particularly subtle and light-hearted man.

One day Bismarck asked that a bell be rung in his room, so that he should not be obliged to shout for his servant when he wanted him. The landlord declared curtly that he would do so on such expense—that it was entirely the lodger's affair.

A few days later the inmates of the house were surprised by the accession of pistol shots coming from Bismarck's room.

The landlord, imagining all kinds of fearful disaster, rushed to the room from which the shots had come. Trembling with fear, he threw open the door. There, to his astonishment, he beheld Bismarck, quietly reclining on a sofa, with a smoking pistol beside him. Without making any sound, Bismarck asked quietly:

"This can I do for you?"

"The quaking landlord managed to stammer:

"Nothing Bismarck happened."

"We've what has happened?"

"Nothing Bismarck happened."

THE FARMERS AND THE GRAIN RING

The Duty of the Hour

In previous articles we have fully covered the true invader of the West, the grain ring, and its selfish motives of the Winnipeg Grain Ring, who are seeking to force the grain growers of the Western Provinces to accept it. The grain men of Winnipeg are not to be trusted. In the past they have always found "occure unfair advantages" at the expense of the farmers, and when they have returned to one blow, all the legal restrictions that now check their rapacity by an establishment of a "sample" market, they must be treated with untiring determination and vigor. The people of the western provinces cannot afford to sacrifice the advantages they have gained over this ring of sharks after years of determined "control" of the grain market. The farmers must remember that when the sample market is established, all grain passes into the hands of the Winnipeg grain ring. The moment it is shipped, to be sold by the grain combine for any price they choose to pay. The people of the West will never submit to such an injustice.

We wish to again to emphasize the fact that the growers of the West have never asked for a sample market and do not want it at all. The present system of grading and shipping grain gives general satisfaction to the producers of the West, and is also satisfactory to the buyers in Great Britain, France, Germany and other European countries as well as the United States and home buyers. The "grain" buyer can now see, on grade, sending his orders from his home office, and can be sure of getting just what he has ordered. On the contrary, if he orders from a sample market, he must either send an agent across the Atlantic at great expense, or have his grain shipped to the West, and he must trust the Winnipeg Grain Ring, who will charge him a "rod" full commission for having for the same amount of grain, his commission must also be paid by the western farmers.

In a recent report of J. T. Lithgow, Canadian Trade Commissioner in Germany, he has shown the value of the present grading system and the "Western" grain buyer. He says: "Canadian wheat takes a very high place in the estimation of German buyers and millers, and the large quantities of exports are the result of the confidence in the grading and the satisfaction of the wheat on arrival. The probability that this year the demand for Canadian wheat will be greatly increased. The establishment of a sample market would greatly injure this prospective trade. It would not only injure the German market, but for wheat, particularly in view of the fact that the grain is sold at a price that will be harvested this fall.

ONE THIRD WOMAN AND ONE LITTLE OVEN

You have probably been there yourself—perhaps are right now. Bright women all over Canada are getting away from this. They welcome MOONEY'S BISCUITS as a most acceptable substitute for their own bread and biscuits.

MOONEY'S PERFECTION SODA BISCUITS

are the crispest, creamiest crackers made. Better still, they are baked in Winnipeg; right at your very door. They come to you fresh as the product of your own oven.

You can have them in air-tight packages or sealed tins as you prefer.

LET MOONEY DO IT

Ready to Oblige

"The lady of decided notions and political leanings went to consult her pedlar."

Good morning, Mrs. Tawker, said the pedlar. This is a real busy day. Take this easy chair. Let me lower the blind to keep the sun off of your eyes. Will you have a footstool? Do you feel the "rascal" from that window?

The woman of decided, etc., eyed him coldly.

The moment, please, she commanded sternly. When I come to you I want to talk to you as a man to man. Treat me like you would a man.

The lawyer sank into his chair, and put his foot on the table.

"Sister," he said breezily. Will you have a cigar, Polty?

It would not start on a voyage without it, if it cost a dollar a piece.

Pardon, m'sieur, but see car—how slow, and what, if you please? It is not so.

Yes, replied the conductor, we can't stop it, though. You see the car ahead is behind.

The foreman returned to his seat and car-rider asked him behind. Most astonishing case this country!

I do not understand but some day perhaps I will.

I, replied the conductor, louder than before, that the car ahead is behind. See?

THE GERMAN MENACE

WINSTON CHURCHILL CRITICIZED BY LORD HERSFORD

Churchill's Administration is Declared to be a Failure—That the Only Way Alliance with the Overseas Dominions is the Opinion of Hersford.

London, England.—Lord Charles Hersford speaking at Epsom recently had many unkind things to say of Winston Churchill, whom he characterized as the most eccentric individual who had ever been entrusted with the naval executive.

He has coupled the position eight months and proved a miserable failure.

He speaks of looking at things with a motion eye, but the first necessity is to see straight.

With unaccountable insolence, Winston Churchill took charge of the recent naval review, which resulted in chaotic disorganization.

The German menace was in his opinion so serious that to withdrawing the whole fleet to protect the heart of the Empire would mean leaving an armoured cruiser only responsible for the Mediterranean.

We cannot permit a fight, said Lord Charles, and then he said some more things to come.

Vigorous opposition to a naval alliance with a foreign country, he urged that the Empire defend itself with its own ships.

He concluded that he did not fear Germany, but that it was a danger to the Empire, and that it was a danger to the Empire.

LABOR TROUBLES IN MINES

Labor Department of Dominion Government to Investigate

Ottawa.—Difficulties have arisen between the mining companies and their men and the labor department has been asked and has consented to establish a board of investigation. The board will be composed of representatives of the mining companies, the labor union, and the government.

It is the opinion of the board that the miners are not being paid enough for their work, and that the companies are not providing enough safety equipment.

The board will report to the government within a few weeks.

UNIFORMITY OF STATISTICS.

Prof. Short Estate Co-operation of Western Provinces As Professor

Victoria, B.C.—As Professor Adam Short, who is touring the provinces as a lecturer for the Dominion government, has been successful in obtaining the hearty cooperation of the British Columbia government in the project to produce uniformity of statistics in every branch of Canadian development.

The object of the commission of statistics is to obtain complete records of production and distribution of the various products of the provinces, their value, and the means of their transportation.

Special attention will be paid to the statistics of interprovincial trade. Prof. Short has seen secured the cooperation of the Manitoba, Saskatchewan and British Columbia governments and on his way back he will visit Edmonton and interview Premier Sifton on Alberta's attitude.
